Copies of the listed documents are attached. Because PCT International Application WO 96/23775 is in Japanese, the Patent Owner encloses European Patent Application EP 787720, which is an English-language equivalent. The Patent Owner respectfully requests that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form.

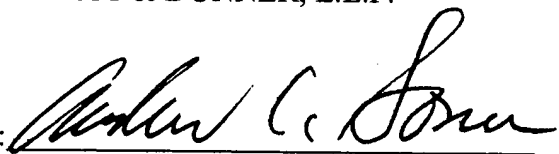

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and the Patent Owner determines that the cited documents do not constitute "prior art" under United States law, the Patent Owner reserves the right to present to the Office the relevant facts and law regarding the appropriate status of such documents.

The Patent Owner further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.
